### NOTES:

1. Education effort is calculated by dividing local education appropriation by local wealth and indexing to State average.

2. Local education appropriations reflect actual numbers reported to MSDE by the LEAs in their Annual Budget reports in accordance with Appendix B of the Financial Reporting Manual, Maryland Public Schools. The appropriations include monies received out of funds set aside for school purposes, but do not include funds received by the LEA from other sources, such as gifts and bequests or funds generated by the LEA through rental of LEA facilities, user fees, tuition, earnings from investments, loans, debt proceeds or sale of assets.

3. Local wealth is the amount used in the current expense formula (Section 5-202 of the Education Article) and includes county assessable base for fiscal year 2011 (July 1, 2010) and net taxable income for tax year 2009 (September 1, 2010).

^ The MDK12 Digital Library, a purchasing consortium made up of all 24 school systems and a number of nonpublics in the state of Maryland, has made the purchase of digital resources affordable for even our smallest districts. For 2010-2011, all schools had access to 7 databases through SIRS/ProQuest, purchased by each school district as part of the master agreement. In addition, middle and high schools had access to a suite of EBSCO databases through an agreement with the State Library Resource Center and SAILOR.
