1.0 PROPOSAL COVER SHEET

Every proposal must have a Proposal Cover Sheet. No other page may cover the proposal cover sheet. The subsequent information must be clearly stated in the following order:

- Name of applicant.
- Title of project.
- The words “Maryland Early Literacy Initiative Grant.”
- Name of contact person.
- Address of contact person.
- Telephone, fax, and email address of contact person.
- Project partners.
- Amount requested.
- Project statement (100-word limit).
- Dated signature of Superintendent of Schools/Head of Grantee Agency.

The Project Cover Sheet should be printed on plain white paper and contain neither graphics nor additional information.

The project statement should briefly describe the project’s outcome(s) and strategies (i.e., what the project will do and how it will do it). Do not exceed the 100-word limit. This statement will be used in press releases, board exhibits, etc.

2.0 PROJECT ABSTRACT

1-page limit

In the Project Abstract introduce the project to the reader. It should be factual, brief, and focused on the organization’s efforts. Do not assume the reader is familiar with the proposed project.

The Project Abstract should cover the core aspects of the proposed project, while addressing the following questions:

- What is the problem?
- What Title I schools will be served by the project?
- What are the goals and objectives of the project? (For brevity, these should be paraphrased.)
- What strategies are to be employed to address the problem?
- Who are the partners, and what are the roles of each?

3.0 TABLE OF CONTENTS

The Table of Contents is an important aid for the reader. When writing the proposal and constructing the table of contents, use the following conventions:

- The Proposal Cover Sheet is not numbered but is considered to be page “I” (lower case, Roman numeral one).
- The Project Abstract is page “ii” (lower case, Roman numeral two).
- Do not list the Table of Contents as one of the pages in the table of contents.
- Table of Contents page(s) is (are) numbered iii, iv, etc.
- The extent of need is the first page of the project narrative and is numbered “1”. Subsequent pages are numbered consecutively.
- The Budget is numbered as follows: “B-1, B-2, B-3”.
- Appendices are labeled “Appendix A, Appendix B, Appendix C”.

4.0 PROJECT NARRATIVE

5-page limit

The Project Narrative provides an opportunity to convince readers that the project is sound and deserves to receive funding. The Project Narrative should encompass the entire life of the project. When writing the Project Narrative, keep the following suggestions in mind:

- Be succinct and clear. Readers need to understand quickly and easily the components of the project and how they work together to address the stated needs.
- Do not assume the reader is familiar with the project; readers represent diverse backgrounds. Avoid jargon and define all acronyms.
- Proofread the Narrative once it is complete. Check for style inconsistencies, redundancies, factual omissions, and unexplained assumptions. A good strategy is to let someone not familiar with the project read and critique the proposal before submitting it to MSDE.
- Be as detailed as possible. Use the entire page limit to explain the project. Use the Appendices to include information that may be important for the reader but will not fit within the Project Narrative. For clarity, it is important to reference in the body of the proposal any supplemental information included in the appendices.

4.1 EXTENT OF NEED

A compelling proposal will have a clearly-defined problem supported by a needs assessment. A needs assessment is a systematic review of information collected from a variety of sources, analyzed to determine strengths and weaknesses, and prioritized for action in the proposal.

Here are some suggestions for the needs assessment.

- Clearly state the main problem in the first paragraph.
- Cite research supporting the need for the project.
- State what data were collected to confirm the existence of the problem, the sources of the data, and the methods used to collect them.
- Present easily-measured quantitative data (e.g., test scores, absentee rates).
- Present qualitative data in support of quantitative data (e.g., interviews, focus groups).
- Use multiple methods to document the problem (e.g., surveys, analysis of school records, previous studies, focus groups).
- Use multiple data sources (teachers, students, parents, etc.).
- Use national or state data to establish the problem's existence outside of the local area.
- Use local data to document the problem in the local area. Include relevant demographics and other statistics about each and every population to be served. Include all relevant data from the Maryland School Performance Program (MSPP).
- State who is affected by the problem. State when and where the problem exists.
- Document the factors contributing to the problem.
- Document current or past efforts to address the problem.
- Show why those efforts failed or are inadequate to address the total need.
- Discuss the applicant's history or expertise in dealing with the problem.
- Discuss the consequences of not dealing with the problem.

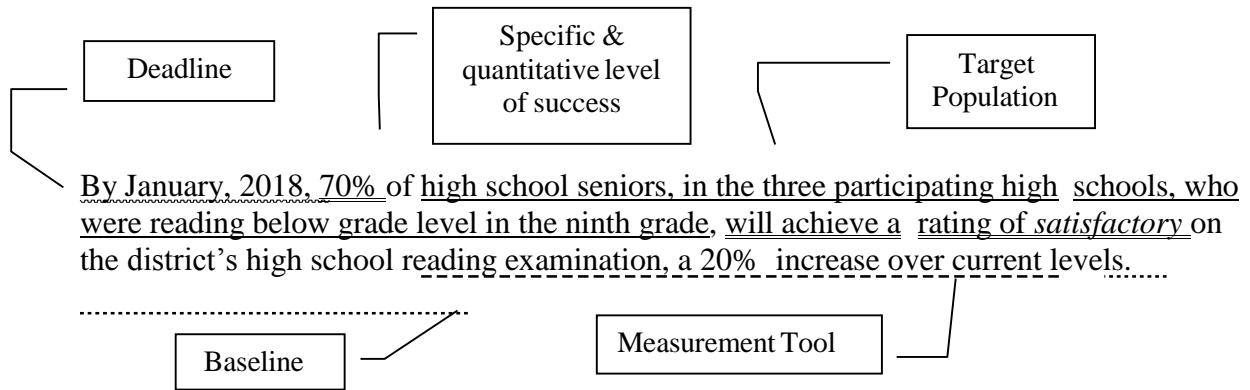

4.2 GOALS, OBJECTIVES, AND MILESTONES

Goals, objectives, and milestones are all outcomes. Outcomes themselves are statements that tell how the project's target population would improve. Every outcome should describe a change in a target population. In addition, they set standards of progress toward alleviating the problems identified in the needs assessment. **Statements that describe strategies or management issues are not proper outcome statements.**

Outcome statements:

- **Identify the target population.** Who is the specific population the outcome addresses?
- **Are realistic.** Outcomes must be attainable. It is unrealistic to expect that all students will achieve 4.0 grade point averages. Unrealistic outcomes set the project up for failure and are "red-flags" for reviewers.
- **Are measurable.** Outcomes must demonstrate clear achievement. A good outcome statement references easily quantified indicators (e.g., test scores, absenteeism, grades, promotion rates).
- **Have deadlines.** All outcome statements specify by when they are to be achieved.
- **Reference state, local, or school-defined baseline data or standards.** To determine if the goal is both reasonable and ambitious, include local baseline data for comparison.

This is an example of an outcome statement containing all of the above elements:

A proposal should identify three kinds of outcomes: goals, objectives and milestones.

THE GOAL

State the overall goal of the project. The goal should address the main problem identified at the beginning of the needs assessment. While there should be at least one goal, it is possible to have multiple goals; however, the more goals established the more complex the project becomes.

Goals must have long-term deadlines. If the project period covers multiple years, the goal should be set for the end of the project. If the project period is one year or less, the goal may have a deadline that extends beyond the project period.

OBJECTIVES

Objectives are the anticipated outcomes to be accomplished for each year of the project.

Objectives must be directly related to a goal. Objectives may break the long-term goal into steps or address the factors contributing to the problem addressed by the goal.

It is imperative that objectives be established for every target population the project is designed to affect. For instance, if the project seeks to increase student achievement by training teachers, there must be objectives for both students and teachers.

MILESTONES

Ongoing evaluation is essential to the management of a project. Since goals and objectives are not evaluated until the end of the year, milestones must be established to measure progress during the year. Milestones should be evaluated during the year, either quarterly or semiannually.

Because milestones are intended to indicate progress towards an objective, each milestone must be related to an objective. Keep in mind that milestones are indicators of progress, and may not use the same measurement tool as the objective to which they are related. A project may take months before there is a significant impact on clients, or the rate of improvement may level off over time. Milestones should anticipate this and be gauged accordingly. Don't set overly-ambitious milestones.

4.3 PLAN OF OPERATION

In the Plan of Operation discuss the strategies and activities to be used to accomplish the outcomes.

STRATEGIES

Strategies are broad approaches (methods, procedures, techniques) employed to accomplish outcomes. Begin this section with a justification as to why the strategies were chosen and how they will help to achieve the outcomes. The justification should cite evidence to support the strategies. It is essential that the project include strategies for each outcome, and outcomes for each strategy.

Upon identifying the strategies, discuss how they will be adapted to fit the particular project. Who are the target clients, and how will they use or be affected by the project services? How many clients from each client group will ultimately be serviced by the project, both directly and indirectly? Explain how these numbers were derived.

ACTIVITIES

Activities are specific steps taken to accomplish the project objectives, and involve direct service to clients (students, teachers, parents). Examples include: specific teacher in-services, parent nights, and mentoring sessions. They may take place on a single date (e.g., a field trip), or over a period of time (e.g., the use of an innovative curriculum).

Actions outlined in the management plan are not activities. While these actions are needed to facilitate direct service, they do not render direct service themselves. Examples include the purchasing of equipment, the hiring of staff, evaluation procedures, and steering committee meetings. Do not address the elements of the management plan in this section.

List the activities that the project will implement and relate each activity to a strategy. Activities should be grouped with respective strategies. Discuss how the activities relate to the respective strategies. Finally, identify which clients and how many will be serviced by each activity.

PLAN OF OPERATION WORKSHEET

Please use a separate worksheet for each goal to be addressed with supporting objectives, strategies, activities and milestones. Extend the worksheet as necessary to accommodate the number of strategies or activities planned.

Need to be addressed:
Goal #1 (related to need):
Objective (marking progress toward Goal #1):
Strategy #1 (supporting Goal #1):
Activity #1 (supporting Strategy #1):
Activity #2 (supporting Strategy #1):
Activity #3 (supporting Strategy #1):
Activity #4 (supporting Strategy #1):
Milestones to document progress toward Goal #1):

4.4 EVALUATION AND DISSEMINATION PLAN

Grantees are required to submit annual evaluation reports and quarterly progress reports that are consistent with the project's goal and objective(s). Keep in mind that the final evaluation will consider the entire project, beginning to end. It should not be viewed as what is done after the project's completion, but as an integral element in the project's planning, design, and implementation. An effective ongoing plan that evaluates milestones quarterly lends to making informed decisions about needed changes.

EVALUATION AND DISSEMINATION NARRATIVE

The topics listed below provide the basis for review of the evaluation plan that should be addressed with specificity.

- **Evaluation Questions:** What questions will the evaluation seek to answer, based on the project's goal and objectives, implementation plan, and anticipated consequences? Examine the relationship between the expected outcomes, efforts, and what is important to evaluate.
- **Evaluation Strategy:** What approach will be taken to find answers to the evaluation questions? What criteria will be used to assess lessons learned from the project? What populations will be included in the evaluation?
- **Data:** The type of data and method of data collection will depend upon the nature of the program, the questions, and the evaluation strategy. What measurement instruments will be used? How will the baseline be established? There should be a combination of quantitative and qualitative data identified. How will project staff collect data from the various sites and organizations involved in the project? When considering data collection techniques, ensure that the resources are sufficient to use the proposed data collection techniques.
- **Evaluator(s):** Specify the individuals or groups who will conduct the evaluation. What are the qualifications of each? What are the responsibilities of key personnel?
- **Budgeting of resources and staffing for evaluation:** The application's budget should reflect sufficient funds to carry out a thorough and useful evaluation.

4.5 MANAGEMENT PLAN/KEY PERSONNEL

Where many projects fail is in the management. Submit a detailed and time-specific management plan with pre-assigned responsibilities so as to avoid the following common errors:

- Failure to submit required reports.
- Failure to regularly monitor performance of the project during implementation.
- Failure to start the project on time.
- Failure to keep adequate project documentation.
- Failure to assure continuity and quality of the project in light of personnel turnover.
- Changing without approval from MSDE the overall project from that described in the grant proposal.
- Submission of biased or incomplete project evaluation data.
- Having no approved project fiscal procedure in place.
- Disposal of project supplies, equipment, or other assets in unauthorized ways.
- Budget deviations due to unauthorized transfers from one budget category to another.
- Failure to manage inherent conflicts of policies, perspectives, and philosophies between project's host agency and the funder.
- Failure to form partnerships in which all members recognize and fulfill clearly-defined roles, responsibilities, and contributions to the project.
- Failure to complete the project in a timely fashion.

Present a clear discussion of partners, respective roles in the project, the benefits each expects to receive, and the specific contributions each will make to the project (financial, equipment, personnel, or other resources). It is essential that partner commitments be documented. Append letters of commitment from each, describing roles and quantifying contributions. Never assume that reviewers will automatically be familiar with a proposed partner, what that partner is capable of or willing to commit to the project, or why the partner is joining in on the project.

List the staff or personnel involved in the project's implementation. Detail individual qualifications? Append résumés of key personnel. How much of the Project Director's time is devoted to this project? Are there sufficient staff hours devoted to the project to ensure proper implementation? What plans are in place to ensure the project will continue if there are problems with staff turnover?

MANAGEMENT PLAN WORKSHEET

The Management Plan supports the implementation plan but does not contain direct service activities. Direct service activities belong in the Plan of Operation. Examples of management actions are hiring staff, ordering equipment, developing curricula, and holding steering committee meetings. None of these actions render direct service itself, but enables direct service activities to take place.

List on the Management Plan Worksheet, in chronological order, all major management actions necessary to implement the project during the first year of funding. (Worksheets for subsequent years will be included in the action plans for those years.) Assign an approximate date for each action. If the action is ongoing, indicate the range of dates over which it will be implemented. A well-considered management plan assigns responsibility for action to a management team member. Indicate on the worksheet the individual(s) responsible for accomplishing each action.

Requirements made by the funder, MSDE, should also be included in the management plan. These include the annual financial report, submission of progress reports to MSDE, and the final evaluation. The final report will serve as the final evaluation.

PROJECT TIMELINE

The Project Timeline is a Gantt chart with columns representing the months of the funding cycle. It should contain three sections: management, implementation, and evaluation.

Activity	Month											
	1	2	3	4	5	6	7	8	9	10	11	12

Implementation

4.6 INTEGRATION WITH EDUCATION REFORM

If a project is to be successful, it must be aligned with the goals, efforts and plans of Federal, State, and local governments, as well as school improvement teams. This section illustrates how the project is part of overall education reform.

This section should address the following questions:

- How does this project help meet the goals and objectives of the School Improvement Team plan?
- How does this project fit into the LEA's master plan?
- How does this project help meet State educational standards (e.g., MD College and Career Readiness Standards)?
- How does this project help meet national education goals or fit into national initiatives?
- Does this project coordinate efforts with other projects currently underway?
- Are there plans for future projects that will coordinate with this one?
- Will resources be shared to increase efficiency and cost effectiveness?

4.7 FUTURE PLANS

Describe plans for continuing the project beyond the funding cycle. How will it be sustained after funding ends? Are there plans for maintaining the project's partnerships?

5.0 BUDGET NARRATIVE

No page limit

The project’s budget should detail every year of the project in a separate itemized budget for each year. It should demonstrate the extent to which the budget is reasonable, cost-effective, and integrates other sources of funding. All costs described in the project narrative will appear in the budget narrative and must have a corresponding entry in the itemized budget for that year.

Begin the budget with a narrative, justifying any line item expenses that are not obvious from the project narrative. Explain how line item costs were estimated, if the rationale is not obvious. Show how the budget is cost effective.

Immediately following the justification, include a line-item description using the format in the example below. Group line items according to the following categories: *Salaries & Wages, Contracted Services, Supplies & Materials, Other Charges, Equipment, and Transfers*. Total each category.

Each line must be detailed and specific. General expenses should be broken down into specific line items. For example, “meeting expenses” can be broken down into room rental, photocopying and refreshments. There is no page limit for the budget, so be as detailed as possible.

Clearly show the requested funds and in-kind contributions for each line item. Indicate the source of the in-kind contribution. Both requested and in-kind funds must be reasonable with current market prices.

Show how the expenses were calculated for each line item. Reviewers will use this information to determine if the budget is reasonable and cost-effective.

Use the format indicated by the following excerpt from a sample Budget Narrative.

Line Item	Calculation	Requested	In-kind	Total
Salaries & Wages				
Project Director based on SACPS salary for Admin Specialist Level 3.	Full-time @ \$40,000/year	\$20,000	\$10,000 (SACC)	\$40,000
